

FINALS ELIGIBILITY POLICY

THE POLICY

A player is considered eligible to play finals if they have played a minimum of four (4) games as a registered player with their club.

- have been played by the completion of Round 10
- have been on four separate dates.

Teams can register players after this date, but these players will not qualify for finals.

Players using Single Game Vouchers do not count towards finals.

Teams can register players after this date, but these players will not qualify for finals.

In circumstances where a team has had multiple injuries, and those players will not be fit to play finals, a letter must be submitted to the Competition committee listing the injured players who will not be available for finals, including the player who is being requested to qualify in place of the player/s.

Clubs seeking exemptions for players to qualify after the completion of Round 10 must use players from teams from lower grades. In cases where clubs are single entity teams or the lowest graded teams in their club a submission can be made to request the qualification of players to be considered by the Competition Committee.

Players who register late in the season, which are not directly related to an injury of another player within that same team will not be approved.

Players who are on extended holidays and miss six (6) or more game during the qualification period will not be approved for exemptions.

THE PROCESS

All requests for exemptions to this policy must be received by the Association by 5pm Friday prior to Round 8 each calendar year to be considered, with late requests not considered.

NO reminders will be issued to clubs regarding this policy, it is the club's responsibility to adhere to the timeframe set out above.

NOTE: The above process and the Competition Committee decision is final. The Association Committee will not enter into any further discussion with Clubs, Teams or Individuals.
